

Dr. Rajan Sharma -- MBBS, MD (General Medicine)

Reg: KA/45678/2015 | City Clinic, 14 MG Road, Bengaluru-560001 | Ph: 080-4567-8910

PATIENT DETAILS

Patient Name: Rajesh Kumar
Age / Gender: 34 Years / Male
Member ID: EMP001
Date of Visit: 01-Nov-2024
Referred By: Self

CLINICAL DIAGNOSIS

Viral Fever with mild upper respiratory tract infection (URTI)

Patient presents with high-grade fever (102 F) for 3 days, sore throat, rhinorrhoea, and body ache. No signs of bacterial infection. CBC and Dengue serology ordered to rule out secondary infection.

PRESCRIPTION (Rx)

* Prefer generic equivalents wherever available

#	Medicine / Drug	Dosage	Duration
1	Paracetamol 650 mg	1 tab TDS (after food)	5 days
2	Vitamin C 500 mg	1 tab OD	7 days
3	Cetirizine 10 mg	1 tab HS (at bedtime)	5 days
4	ORS Sachets	1 sachet TDS in water	3 days
5	Ibuprofen 400 mg (if reqd.)	1 tab BD after food	3 days

INVESTIGATIONS ORDERED

Test Name	Urgency	Notes
Complete Blood Count (CBC)	Same Day	Check WBC and platelet levels
NS1 Antigen -- Dengue	Same Day	Rule out dengue fever

ADVICE

- Take complete rest for 3-5 days.
- Drink 3-4 litres of fluids daily (water, ORS, coconut water).
- Return immediately if fever > 103 F or rash develops.
- Follow-up after 5 days or earlier if symptoms worsen.

Consultation Fee: Rs. 1,000/-
